

# BS2000 compact repeater

- for VHF or UHF

The BS2000 compact is an unattended repeater. VHF or UHF frequency bands.  
Adjustable transmitter output power high / low 5 / 25W.  
Operating temperatures from -30 °C to 70 °C.

Unattended repeater duplex version for connection to a 12 V. DC. Supply voltage.  
Dimensions: h: 211 mm x W: 317 mm.

Special developed for continuous transmission

Electrical specifications – real Base station

Programmed to customers frequencies

Duplex filter included (6 cavities filter)

12 VDC standard (110/220 VAC power supply option)

Tested & adjusted

Plug & play

## TP Radio

## HIGHLIGHT

- Full RF bandwidth  
68 - 88 MHz  
135 - 174 MHz  
350 - 410 MHz  
400 - 470 MHz
- Channel spacing  
12,5 / 20 / 25 KHz
- 32 Channels Repeater
- Adjustable power HIGH/Low  
switch 5 / 25 Watts
- CTCSS Signaling /  
Carrier Related Controlled Repeater
- Highly Flexible built with a  
Modular design
- Weatherproof Cabinet For  
wall Mounting
- Rugged Construction  
(aluminum)
